DELIVERABLES

Formats currently accepted: GIF, Animated GIF, JPEG, HTML

Dimension: 650 pixels width max; File Size: 50K limit

HTML DESIGN REQUIREMENTS

- Use HTML software such as Dreamweaver, MS FrontPage or Adobe GoLive to create the HTML. Do not use MS Word, MS Publisher, or other graphics/desktop publishing software.
- Do not use Cascading Style Sheets (CSS), JavaScript, Submission Forms, Layers, or Rich Media (i.e. flash movies, animation)
- Use basic HTML tags for the coding.
- Do not use comments in the HTML code of your email as they can potentially flag spam triggers.
- Provide a hyperlink to a related website or an email address that the recipient can contact.
- Minimize use of graphics/images in the design to avoid potential issues.

HTML DESIGN RECOMMENDATIONS

- Use fonts that are universal on the Internet
- Minimize the number of fonts/sizes/colors used in the design for easy flow and professional look.
- Avoid using white (#FFFFFF) text.
- Use ALT tags in the HTML code for each image used in the HTML design.
- Minimize graphics and images to logos, photos of products, or situational photos that support the message visually.
- Keep the length of the email short, concise, and about one page max in length.
- Use bullet points to identify key points in the message.
- Clearly identify the "call to action."
- Consider using a "preheader," that greets the user, has a short summary and call to action. This is good for mobile users and preview pane.
- Make the hyperlink prominently displayed to measure results by click-throughs.

Material Deadline: Minimum of 5 business days prior to deployment. Missing Items will delay deployment. Epromotion dates are scheduled far in advance. If the deployment date is missed due to materials, you will incur media charges.

Additional Production Charges if required: Up to \$175 could apply if HTML needs refinement.
